Panel Blinds

## Fight Back with Ultra-Fresh™

Louvolite® window blinds, just  
what the Doctor ordered!

## Window blinds providing lasting, hygienic cleanliness

Window blinds that have the Ultra-fresh™ treatment help maintain a fresh, hygienic and sterile environment, making them ideal for use in schools, nurseries, hospitals, offices and care homes.

- \* Ultra-fresh™ provides roman, roller, panel and vertical blinds with effective antibacterial and antifungal properties that preserve hygienic freshness - permanently!
- \* Ultra-fresh™ kills super bugs such as MRSA and Clostridium Difficile.
- \* Treated window blinds will inhibit the growth of odour causing bacteria, fungi, mould and mildew, producing a self deodorising surface.
- \* Ultrafresh™ treated fabrics are flame retardant for extra peace of mind.
- \* Treated window blinds are easy to maintain and will maintain their sterile properties even after washing.
